1. Introduction

This Frequently Asked Questions (FAQ) document provides answers to common questions asked by employees, interns, clients, and business partners. It serves as a quick reference guide for company policies, services, work culture, and general operational information.

The information contained in this document is intended for public and internal informational use and does not include confidential business data.

2. About SentinelAI Technologies

SentinelAI Technologies Pvt. Ltd. is an Artificial Intelligence company focused on developing intelligent software solutions that help organizations automate business processes, improve operational efficiency, and strengthen cybersecurity.

The company specializes in building scalable AI platforms for enterprises across industries such as healthcare, finance, manufacturing, education, logistics, and retail.

SentinelAI combines machine learning, natural language processing, computer vision, data analytics, and cloud technologies to deliver practical AI solutions.

3. Vision and Mission

Vision

To become a globally trusted provider of enterprise Artificial Intelligence solutions that enable organizations to make smarter, faster, and more secure decisions.

Mission

- Deliver reliable AI-powered products.
 - Promote responsible and ethical AI development.
 - Simplify enterprise workflows through automation.
 - Protect organizational data using intelligent cybersecurity solutions.
 - Invest in continuous innovation and employee learning.
-

4. Company Services

SentinelAI Technologies provides solutions in several domains.

Artificial Intelligence Solutions

- Machine Learning Applications
- Deep Learning Solutions

- **Predictive Analytics**
- **Recommendation Systems**

Generative AI

- **Enterprise Chatbots**
- **Retrieval-Augmented Generation (RAG)**
- **Document Intelligence**
- **AI Knowledge Assistants**
- **Agentic AI Systems**

Cybersecurity AI

- **Threat Detection**
- **Security Monitoring**
- **Data Leak Prevention**
- **Semantic Data Exfiltration Detection**
- **AI-Based Security Analytics**

Data Engineering

- **Data Pipelines**
- **Data Warehousing**
- **ETL Solutions**
- **Business Intelligence Dashboards**

Cloud Services

- **Cloud Migration**
- **Infrastructure Automation**
- **Containerized Deployments**
- **Kubernetes Solutions**

5. Office Locations

The corporate headquarters is located in Bengaluru, Karnataka, India.

Regional offices support customers across multiple locations.

Current office locations include:

- **Bengaluru**
- **Hyderabad**
- **Chennai**
- **Pune**

The company also supports hybrid and remote work for selected roles based on project requirements.
